**SUMMARY OF BILL:** Adds the hallucinogenic drug 4-bromo-2, 5 dimethoxyphenethylamine (2C-B) to the list of Schedule I controlled substances.

**ESTIMATED FISCAL IMPACT:**

**Increase State Expenditures – Not Significant**

Assumptions:

- Currently it is a Class B felony for a person knowingly to manufacture, deliver, or sell a Schedule I controlled substance, or to possess a Schedule I controlled substance with the intent to manufacture, deliver, or sell such substance.
- The hallucinogenic drug 4-bromo-2, 5 dimethoxyphenethylamine (2C-B) is not specifically listed under Tenn. Code Ann. § 39-17-406 as a Schedule I controlled substance. It is designated as such under federal law and would already be prosecuted in Tennessee.
